

ANSH AHUJA

Kanpur, India-208005 | +916393666581 | anshahuja8248@gmail.com | [LinkedIn](#) | [Github](#)

Technical Skills

Programming Languages: Python, C/C++, Java, JavaScript, SQL, HTML, CSS

Frameworks Libraries: umPy, Pandas, Matplotlib, Scikit-learn, PyTorch, Flask, MongoDB

Cloud Platforms: Google Cloud Platform (GCP), AWS

Core Concepts: Machine Learning, Artificial Intelligence, Data Structures Algorithms, Web Development, Database Management, Cloud Computing

Soft Skills: Public Speaking, Leadership, Collaboration, Communication, Teamwork, Team Building, Problem Solving

Projects

NutriScan-Food Products Classifier <i>Python, scikit-learn, MongoDB, Flutter</i> GitHub 	Oct 2024
- Developed machine learning models to classify products into five nutritional levels (A-E) based on their ingredients. - Implemented and trained both Random Forest and Logistic Regression algorithms for the classification task. - Utilized a custom-built dataset of 750 products to train and validate the models. - Evaluated model performance by comparing metrics like accuracy, precision, recall, and F1 score. - Generated visual graphs to represent and analyze the predictive accuracy of each model.	
Dr.Doc <i>Python, CSS, Java, HTML</i> GitHub 	July 2025
- Developed a web application that transforms PDF documents into educational resources using AI. - Integrated Gemini AI to automatically identify and highlight important content within uploaded PDFs. - Generated various exam-style questions, including multiple-choice, short-answer, and long-answer, from the text. - Engineered the app with a Python/Flask backend, PyMuPDF for PDF processing, and an HTML/JS frontend. - Implemented custom, sentence-level highlighting with user-defined color schemes for a personalized experience.	
Solar Roofing <i>Python, PyTorch, YOLOv8, Streamlit</i> GitHub 	March 2026
- Developed a high-accuracy semantic segmentation framework (U-Net, YOLOv8, Mask R-CNN) to map rooftop areas in satellite imagery. - Integrated a custom Dice Loss function to overcome severe data class biases, enabling robust 100-epoch training cycles on large-scale Kaggle data. - Launched an interactive Streamlit web application that converts raw Google Maps screenshots into actionable solar potential and financial ROI insights.	

Education

Vellore Institute of Technology, Bhopal B.Tech in Computer Science and Engineering — CGPA: 8.87	Aug 2023 – Present <i>Bhopal, India</i>
Delhi Public School Kalyanpur Kanpur CBSE Class 12th — Percentage: 85%	July 2022 <i>Uttar Pradesh, India</i>
Delhi Public School Kalyanpur Kanpur CBSE Class 10th — Percentage: 95.2%	July 2020 <i>Uttar Pradesh, India</i>

Certifications

Cloud Computing(IIT Kharagpur) Achieved a commendable score of 77% in the final assessment.	Apr 2025
Fundamentals of AI & ML (Vityarthi)	June 2025
Python Essentials(Vityarthi)	November 2023
GirlScript Summer of Code 2025	March 2024

Achievements

GirlScript Summer of Code 2025 Dec 2024 – June 2024	Intern
AI Hackfest 2025 April 2025	Participant
GrabHack: Campus Edition August 2025	Participant
Adobe India Hackathon August 2025	Participant

Extracurricular Activities

Anchoring team - Member * Hosted Singer Mohit Chauhaan In college fest	2024
Anchoring Team - Lead * Lead the Anchoring team for college fest and on stage performance in front of 5000+ audience	2025
